Projects

Crave | Restaurant finding responsive web app
March 2024 - July 2024

- Designed high-fidelity mockups and a prototype for a location-based restaurant finding responsive web app geared for younger users
- Conducted user interviews and user research to define user needs
- Created an intuitive and engaging experience for users

Remi | Productivity native app
July 2024 - August 2024

- Curated high-fidelity mockups and prototypes for a native productivity app designed to motivate users through positive reinforcement
- Conducted user research and implemented iOS and Android style guidelines
- Created an inviting and motivating interface in dark mode

Work experience

Volunteer Bible educator
2014 - present

- Schedules and conducts Bible studies to help students understand and apply what they learn
- Searches for interested individuals through door-to-door visits, phone calls, and letter writing
- Maintains records of those interested
- Prepares discussion outlines and conducts research to support studies
- Works in teams of two during study sessions
- Communicates with students in person, virtually, and by phone
- Uses questions and active listening to understand students' feelings and perspectives
- Helps students reason and address their needs
- Assists students in discovering concepts that benefit their daily lives
- Regularly attends meetings to improve teaching skills
- Manages time to be prepared and punctual for study sessions

Freelance baker
2022 - present
